SUMMARY

Undergraduate pursuing a Double Degree in Informatics (UII) and Software Engineering (Nanjing Xiaozhuang University). Specialized in frontend web development using React, Next.js, TypeScript, and Tailwind CSS, with hands-on experience delivering production-grade platforms from scratch. Experienced in API integration, UI/UX design with Figma, and cross-functional team collaboration across academic and professional settings.

EXPERIENCE

IT Manager
Hellocation (Jan 2026 - Present)

- Spearheaded the strategic restructuring of the IT division into specialized "Development" and "Support" squads to optimize team workflow, accountability, and project delivery speed.
- Leading the comprehensive redesign of Hellocation.id, managing the full project lifecycle from high-fidelity UI/UX conceptualization to secure WordPress staging and implementation.
- Directing a remote team of UI/UX designers and web developers by establishing agile Notion workflows, tracking monthly KPIs, and actively managing task delegation to prevent bottlenecks.
- Acting as the bridge between IT and C-level executives to align technical roadmaps with business goals, while directly overseeing critical server troubleshooting to ensure maximum website uptime.

Frontend Web Developer
Kelas Kampus (Jul 2026 - Oct 2026)

- Rebuilding Kelas Kampus's website front end using Next.js, TypeScript, Tailwind CSS, and Framer Motion, migrating legacy pages to a modern, component-based architecture.
- Integrating the frontend with backend services via REST API to fetch and manage platform content and data.
- Building a design system covering reusable components, typography, spacing, and color tokens to ensure visual consistency across the platform.
- Collaborating remotely with the Kelas Kampus team as part of Batch 8, translating product and content requirements into responsive, production-ready interfaces.

Web Developer
Jamusari Cafe (Aug 2025 - Nov 2025)

- Designed a responsive and visually engaging user interface to promote the "Modern Jamu" concept and TOGA conservation initiative, ensuring a seamless user experience.
- Curated all digital assets and implemented comprehensive SEO strategies to ensure high search visibility and optimal site performance across devices.
- Managed the full project lifecycle independently, from initial requirement gathering and resource collection to final launch and ongoing maintenance.
- Leveraged WordPress and Elementor to build a fully customizable, no-code-friendly site architecture, enabling easy content updates and long-term maintainability by non-technical stakeholders.

Software Engineering Course Teaching Assistant
Islamic University of Indonesia (Mar 2025 - Present)

- Assessed and provided constructive feedback on student assignments to help them avoid repeating mistakes.
- Assisted students in understanding course material and assignments through responsive and clear communication.

Data Structures and Algorithms Laboratory Assistant
Integrated Informatics Laboratory (Mar 2025 - Present)

- Supported 30+ students enrolled in the Data Structures and Algorithms course during weekly lab sessions.
- Reviewed and graded coding assignments, providing guidance for logical structuring and efficiency improvements.
- Delivered explanations and hands-on assistance during labs to reinforce students' understanding of algorithmic concepts and programming techniques.

UI/UX Designer
HelloCation Korea (Mar 2024 - Jun 2024)

- Redesigned the entire HelloCation website, including the Home, About Us, Services, News, and Contact pages, focusing on modern layouts, improved visual hierarchy, and consistent branding.
- Enhanced page structures with clearer navigation, optimized content presentation, and refined section organization, such as hero banners, service listings, article layouts, and contact forms.
- Ensured responsive, user-friendly interfaces across all pages using Figma and current UI/UX design principles.

Event Organizer
UII Informatics Student Staff (Nov 2024 - Aug 2025)

- Contributed to the preparation, execution, and post-event activities, including setup, coordination, and cleanup to ensure successful event closure.
- Worked with cross-functional teams to deliver impactful events that enhanced the department's reputation.
- Served as a Buddies, guiding lab tours during visits from schools and universities, providing insights into the department's facilities and programs.
- Coordinated logistics and managed schedules for major events, including the 30th Milad Informatika and Informatics Expo UII 2025.
- Served as Master of Ceremonies (MC) for two sessions at the Informatics Expo UII 2025 at Pakuwon Mall Yogyakarta. Also represented the department as a Course Ambassador, presenting student projects to visitors at the same event.

IT Support
HelloCation Korea (Oct 2024 - Feb 2025)

- Provided technical support, focusing on Zoom-related issues.
- Managed live streaming of events across social media platforms, ensuring professional broadcast quality.
- Analyzed social media engagement metrics to optimize content strategies.

Media and Information Staff
HMIF LEM FTI UII (Sep 2024 - Dec 2025)

- Created and managed digital content to promote HMIF initiatives and boost engagement.
- Led a social media campaign introducing the executive team, handling photography, editing, and publishing.
- Assisted in producing a monthly podcast on informatics topics, featuring guest speakers and audience interaction.
- Strengthened the organization's Instagram presence with bi-weekly posts, informative content, and engagement strategies.
- Helped position the division as a key information source for the Informatics community.

PROJECTS

Kelas Kampus Website - Frontend Web Developer
Kelas Kampus (Jul 2026 - Present)

- Rebuilt core pages of Kelas Kampus's website, an education platform for university entrance exam prep and campus life content, using Next.js, TypeScript, and Tailwind CSS.
- Established a reusable design system, including component library and style tokens, to standardize UI across the platform and speed up future development.
- Improved page structure and responsiveness to support Kelas Kampus's growing student user base.

Wandr - iOS Developer
Nanjing Xiaozhuang University (2026)

- Built a full-featured iOS travel companion app using SwiftUI, Firebase, ARKit, MapKit, and Core ML.
- Architected eight AI agents (via Groq and Gemini) to power personalized itinerary generation and in-app travel assistance.
- Implemented AR landmark scanning and food scanning features, using ARKit and Core ML for real-time on-device recognition.

KinetiQ - iOS Developer
Nanjing Xiaozhuang University (2026)

- Built a SwiftUI iOS app integrated with HealthKit for real-time fitness data collection and health permission management.
- Architected a multi-agent crewAI backend (UIAgent, HealthKitAgent, QAAgent) using Python with Groq's LLaMA 3.3 70B via an OpenAI-compatible endpoint.
- Coordinated AI agent outputs as structured input for Swift frontend logic via AgentCoordinator.swift.

JAMUSARI - Web Developer
Jamuan (Aug 2025 - Nov 2025)

- Spearheaded the end-to-end development of jamusari.com using WordPress, managing server hosting, domain configuration via Hostinger, and final deployment independently.
- Designed a responsive, culturally relevant user interface to digitize the "Modern Jamu" brand, creating custom layouts for product catalogs, educational blogs, and conservation galleries.
- Translated the PPK Ormawa community empowerment mission into a cohesive digital narrative, gathering and structuring all content to promote TOGA conservation efforts in Desa Guwosari.

HealthSync - Web Developer
SE7EN (Mar 2025 – Jul 2025)

- Led the development of a healthcare platform using Next.js, Supabase, and PostgreSQL to integrate electronic health records and cross-facility data.
- Integrated the Google Generative AI SDK to build an intelligent health chatbot and diagnostic assistant, providing real-time support for patients.
- Engineered a real-time queuing system and role-based access control (RBAC) to streamline hospital workflows for doctors and administrators.

WETRACK - Web Developer
BYTE ME (Sep 2024 - Jan 2025)

- Developed a web-based surveillance system using PHP, MySQL, and JavaScript to track ex-prisoners and monitor compliance before full release.
- Implemented real-time location tracking and geofencing features to alert authorities of unauthorized movement or boundary violations.
- Designed a scalable multi-user architecture enabling different authorities to securely access and manage sensitive tracking data.

AquaLink - Software Developer
CodeCraftCrew (Mar 2024 - Jul 2024)

- Led the development of a Java-based application utilizing an XML database to address SDG6 (Clean Water & Sanitation) challenges.
- Designed a multi-user reporting system to enable real-time tracking and resolution of sanitation issues within the community.
- Developed the core project architecture and produced promotional materials, including posters and videos, to drive user awareness.

EduNovel - UI/UX Designer
EduConnect (Sep 2023 - Jan 2024)

- Designed the user interface for an interactive educational app, integrating gamification elements to significantly boost student engagement.
- Enhanced platform accessibility and usability for both students and educators through intuitive, user-centered design principles.
- Created comprehensive visual assets and promotional content to support the app's marketing reach and adoption.

EDUCATION

2025 - Present
Software Engineering
Nanjing Xiaozhuang University (NJXZ) | Nanjing, China
Double Degree Partner Institution

2023 - Present
Informatics
Islamic University of Indonesia (UII) | Yogyakarta, Indonesia
Double Degree Program with Nanjing Xiaozhuang University

2020 - 2023
Mathematics and Natural Sciences
SMA N 1 Purworejo | Central Java, Indonesia

SKILLS

Technical Skills

- Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Framer Motion
- Backend & Database: PHP, MySQL, PostgreSQL, Supabase
- Programming: Java, Python, Swift (SwiftUI)
- Design & CMS: Figma (UI/UX), WordPress, Elementor
- Tools: Microsoft Office Suite, Git/GitHub

Soft Skills

- Project Management
- Teamwork & Collaboration
- Leadership & Mentoring
- Problem-Solving & Innovation
- Effective Communication
- Discipline & Precision

Languages

- Indonesian & Javanese: Native or Bilingual Proficiency
- English: Professional Working Proficiency
- Chinese: Elementary Proficiency
